

28 April 2017

Program

**La Maison de l'Amérique Latine
217 boulevard Saint Germain - 75007 Paris**

10.00 Welcome and registration

10.15 Session 1: Oil Price

- The price of oil after the OPEC agreement (30 November) and the agreement between the main non-OPEC producing countries. Do the agreements work? Which lessons can be learned from the last months? How have shale oil (LTO) producers reacted? What is the potential of shale oil?
- Do OPEC countries accept the rules? Are non-OPEC countries cooperating...?
- Geopolitical issues: are the conflicts (especially between Saudi Arabia and Iran) reduced by the agreements? Can Russia cooperate for long?

12.15 *Lunch*

13.45 Session 2: The "new" energy mix

What is the impact of the recent COP(s)? What is the impact of the election of D. Trump? Will renewables develop increasingly quickly? How can we adapt the electricity system to the growing proportion of intermittent energies? Where are the costs of wind and solar energy?

15.15 *Coffee break*

15.45 Session 3: The future of transportation

Electrification of transport: is peak oil demand looming in the transport sector? What would the impact be on oil consumption (according to IEA this impact would be limited up to 2040)? The role of other engine fuels (LNG, LPG, etc.).

18.00 *End of the meeting*
